

IMPLANT POST SURGICAL INSTRUCTIONS

For the best result with your implant be sure to follow these instructions exactly.

1. Make sure to remove your flipper (temporary partial) each night.
2. Keep the surgery site clean. **Very gently** brush the surgical site.
3. Salt water rinses. Rinse with warm salt water twice daily.
4. Chlorhexidine rinses. Rinse twice daily.
5. Diet. Avoid biting or chewing in the surgical area. **Soft foods only for 2 weeks.**
